

BURHAN ALI

SOFTWARE ENGINEER

201 Khanda Budgam, Srinagar | burhanali0116@gmail.com | [portfolio](#)

SUMMARY

Government-certified Software Engineer (NSQF Level 4) specializing in full-stack development and embedded systems. Experienced in designing and building production systems spanning backend APIs, frontend interfaces, and IoT architectures. Proven expertise building LMS platforms, AI-powered content systems, and real-time data pipelines. Recognized by NITI Aayog for innovation and formally trained as technical instructor in IoT and mechatronics

TECHNICAL SKILLS

Backend & APIs

- Python
- FastAPI

Fronted Development

- Next.js
- React
- JavaScript / TypeScript

Embedded & IOT

- Embedded Systems
- Arduino
- Firmware Development

IOT Protocols

- MQTT
- Sensor Integration
- Real-time Data Pipelines

Database

- PostgreSQL
- Redis
- SQLite

Tools & Infrastructure

- Git / Github
- Docker
- Linux

PROFESSIONAL EXPERIENCE

Production Systems Engineer – Easyio Technologies

January 2026

- Architect and maintain TechNurture LMS – production learning management platform with video streaming, user authentication, and progress tracking
- Developed AI-powered blog generation system integrated in Next.js API routes with SEO optimization
- Tech Stack: Next.js, React, FastAPI, PostgreSQL, Docker

Technical Instructor & Workshop Expert

November 2025

- Designed and instructed 4-day hands-on workshop: Exploring Mechatronics & Internet of Things
- Taught practical IoT applications, sensor integration, and embedded system design

Professional Internship – Pi Jam Foundation

December 2024

- 3 Months | Software Development
- Gained professional experience in software development and systems design
- Developed understanding of production workflows and collaborative development practices

GITHUB & OPEN SOURCE

119+ Public Repositories | github.com/Burhanali2211 | GitHub Achievements: Pull Shark, YOLO

CERTIFICATIONS

- Junior Software Developer (NSQF Level 4) – IT-ITeS Sector Skills Council | Government-certified
- ATL Student Innovation Bootcamp – NITI Aayog, Government of India
- 3-Day AI & Robotics Bootcamp – University of Kashmir (Oct 2025)
- Embedded Systems Using Arduino Workshop – Islamia College (May 2025)
- 3D Modeling & Printing Workshop – ATFAAL Innovation Lab (April 2025)
- Understanding Climate Change Workshop – Amar Singh College (May 2025)
- Youth Empowerment & Skills (YES!+) Program – Sept 2025

EDUCATION

Islamia College Of Science & Commerce

Bachelors of Computer Applications – BCA | Aug 2024 – Present

Govt. Higher Secondary Khanda

Secondary Education – Arts Stream | Mar 2021 – Mar 2024

ADDITIONAL INFORMATION

- **Languages:** Kashmiri (Native), English (Fluent), Urdu (Native)
- **Open Source Portfolio:** [GitHub](#) — 100+ public projects across embedded systems, automation, and Python.
- **Academic Contributions:** Delivered technical lectures and mentored students in embedded systems, automation, and programming across academic institutions.
